

## Clients

Holmwood Consulting Limited has experience of working in and consulting to a broad range of enterprises in monopoly, transition and liberalised markets and is proud to have worked with some of the world's major gas and power companies, niche energy, premier industry training organisations, leading energy software providers, investment analysts, private equity & venture capitalists and others. A significant part of our activity is based on repeated business and all of our client relationships are based on mutual confidence, confidentiality, respect and continuous loyalty. We have operated with many leading international organisations from both the private and public sector, most having close interests in Energy and Utilities. These organisations have included:
